Rankings determined by new cancer cases** in that year.
Males and females shown separately.

*Cancer groups are specified as per the Canadian Cancer Statistics (CCS) 2010. This includes 24 groups, 1 of which is 'All other cancers' which includes cancers not specified by the other 23 groups. The 'Other and unspecified' group in the tables above is equivalent to the CCS 'All other cancers' group.

**New Cancer Case: Includes BC residents at diagnosis with any invasive cancer.
