LIP & ORAL CAVITY STAGING DIAGRAM

Referred as part of definitive treatment (initial treatment of disease).
Definitive treatment already received. Referred at recurrence.
Previously treated and followed elsewhere before referral.

AJCC 7th Edition for Diagnosis Date ≥ 01 January 2010
Definitions for T, N, and M Descriptors

PRIMARY TUMOR (T)
TX Primary tumor cannot be assessed
T0 No evidence of primary tumor
Tis Carcinoma in situ
T1 Tumor 2cm or less in greatest dimension
T2 Tumor more than 2cm but not more than 4 cm in greatest dimension
T3 Tumor more than 4cm in greatest dimension
T4a Moderately advanced local disease.
  (lip) Tumor invades through cortical bone, inferior alveolar nerve, floor of mouth, or skin of face, i.e., chin or nose
  (oral cavity) Tumor invades adjacent structures only (e.g., through cortical bone, [mandible or maxilla] into deep [extrinsic] muscle of tongue [genioglossus, hyoglossus, palatoglossus, and styloglossus], maxillary sinus, skin of face)
T4b Very advanced local disease. Tumor invades masticator space, pterygoid plates, or skull base and/or encases internal carotid artery
  Note: Superficial erosion alone of bone/tooth socket by gingival primary is not sufficient to classify a tumor as T4.

REGIONAL LYMPH NODES (N)
NX Regional lymph nodes cannot be assessed
N0 No regional lymph node metastasis
N1 Metastasis in a single ipsilateral lymph node, 3cm or less in greatest dimension
N2 Metastasis in a single ipsilateral lymph node, more than 3cm but not more than 6cm in greatest dimension; or in multiple ipsilateral lymph nodes, none more than 6 cm in greatest dimension; or in bilateral or contralateral lymph nodes, none more than 6cm in greatest dimension
N2a Metastasis in single ipsilateral lymph node more than 3cm but not more than 6cm in greatest dimension
N2b Metastasis in multiple ipsilateral lymph nodes, none more than 6cm in greatest dimension
N2c Metastasis in bilateral or contralateral lymph nodes, none more than 6cm in greatest dimension
N3 Metastasis in a lymph node more than 6cm in greatest dimension

DISTANT METASTASIS (M)
M0 No distant metastasis (no pathologic M0; use clinical M to complete stage group)
M1 Distant metastasis
