

Wayfinding to New Kelowna General Hospital Outpatient Laboratory

On May 28, 2012 the Outpatient Blood Collection department of the Kelowna General Hospital Laboratory will be moving to its new location at 2251 Pandosy Street, which is across Pandosy Street from its former location. Hours to access the Outpatient Lab are 7:30 am to 5:00 pm.

1. Access to paid parking under the new building is off Pandosy St., east onto Royal Ave., then south in the back lane. A barrier on Rose Avenue prevents access from Pandosy at the south end of the building. Additional parking is available in the main Hospital lots.
2. From the parking lot, enter the building through the door at the Visitor and Client Drop off Area.
3. Walk straight down the hall to the Outpatient Laboratory waiting area.
4. You can also access the Lab Outpatient area by going through the main hospital campus and across the link to the third floor of the Dr. Walter Anderson Building. From there take the elevator to the first level, turn left and walk down the hall to the Outpatient area.
