

## RECENTLY COMPLETED TREATMENT FOR HEAD AND NECK CANCER?

Protocol number H20-02307

Share your experience and provide feedback on a new app to pave the way for easier understanding and decision-making around treatment options and side effects.

To register or learn more contact:  
Eleah Stringer, [eleah@uvic.ca](mailto:eleah@uvic.ca) or 250-712-6461

**What?** A 1 hour interview

**Where?** Anywhere! The interview is over Zoom, so you're welcome to attend from wherever you choose.

**When?** We're flexible! We'll do our best to accommodate your availability

**Who?** Eleah Stringer, Oncology Dietitian, UVic student

Dr. Andre Kushniruk, Professor & Director, Health Information Science, UVic

Dr. Julian Lum, Senior Scientist, Deeley Research Centre, BC Cancer-Victoria; Associate Professor, Biochemistry and Microbiology, UVic

### PURPOSE

To gather feedback from patients who have completed treatment for head and neck cancer on the usefulness and design of an electronic, decision-support tool (i.e. an app). This app may better inform patients of what to expect through and after treatment and guide their treatment decisions. Your feedback will inform design of the app, with the ultimate goal of improve care to patients with head and neck cancer.

Your health care will not be impacted if you do not join the study or decide to leave the study.

Version 2, Jan 11, 2021.
