

Introducing a Virtual Hereditary Cancer Series

Join us for **free, one-hour virtual lunchtime seminars** featuring leaders in hereditary breast and ovarian cancer research and treatment.

January 15 – Management of menopause after prophylactic oophorectomy.

February 19 – PARP inhibitors for the prevention and treatment of hereditary breast and ovarian cancers.

March 19 – Screening for hereditary breast cancer.

April 16 – Fertility options for BRCA mutation carriers with and without a personal history of cancer.

May 14 – Does a BRCA mutation impact your risk of developing other cancers?

June 18 – Updates on the treatment of BRCA-associated breast cancer.

September 17 – Managing your risk of breast and ovarian cancer.

October 15 – Over 20 years of research: What have we learned?

November 19 – Talking to your family about carrying a BRCA mutation.
