

Welcome and thank you for joining us at this event scheduled to precede our November 24 Family Practice Oncology CME Day and to maximize the CME benefit for those who travel from afar. Our aim is to provide a collaborative, case-based learning opportunity that addresses prevalent and emerging challenges faced by General Practitioners in Oncology and their primary care colleagues.

Learning Objective:

- Describe and manage key patient care issues related to lung cancer, Non-Hodgkin's Lymphoma, prostate cancer, cardio-oncology, and radiation oncology complications; and
- Identify strategies to improve patient outcomes; address unique challenges in management; describe key patient management issues; and summarize new therapies.

Accreditation:

This course has been reviewed and approved by the UBC Division of Continuing Professional Development, meets the certification criteria of the College of Family Physicians of Canada, and has been certified by UBC CPD for up to **5.75 Mainpro+** credits.
