

Welcome and thank you for joining us at this event scheduled to precede our November 23 Family Practice Oncology CME Day and to maximize the CME benefit for those who travel from afar. Our aim is to provide a collaborative, case-based learning opportunity that addresses prevalent and emerging challenges faced by General Practitioners in Oncology and their primary care colleagues.

Learning Objectives:

- Describe and manage key patient care issues related to breast cancer, endometrial cancer, cancer related thromboembolism, pancreatic cancer and renal cancer;
- Identify strategies to optimize patient outcomes and address challenges faced in management; and
- Describe key patient management issues; and summarize new therapies as appropriate.

Accreditation:

This course has been reviewed and approved by the UBC Division of Continuing Professional Development, meets the certification criteria of the College of Family Physicians of Canada, and has been certified by UBC CPD for up to **5.5 Mainpro+** credits.
