BCC Training & Competency hCG Pregnancy Test

CAPT_PRG_0500

Only operators that have received comprehensive training in the operation, quality control, and care of the hCG device will be allowed to perform patient testing using the device.

To perform Point-of-Care testing, all providers need to be trained and certified. Any operators found to be not properly trained or certified will have their testing right suspended immediately.

1. Initial Training

- a. Complete the course and quiz on the Learning Hub: **35064 BCC-Vancouver Centre Point of Care Test - hCG One Step Pregnancy Test**
