

If you can reply yes to these six questions, your daycare or pre-school qualifies as a Sun-Safe Facility, joining the many other facilities throughout the province to receive certification. The BC Cancer Agency would like to recognize your efforts by awarding you a Sun-Safe Facility certificate so that parents and other visitors from your community are aware of your efforts. Please fax or mail in this completed page to receive your Sun-Safe Facility certificate.

1.	Does your facility limit the amount of time children are outside in summer or have them play in the shade between 11 am and 3 pm when too much sun is harmful?	Y/N
2.	Does your facility try to avoid having children outside for extended periods around midday when the sun's rays are most damaging?	Y/N
3.	Does your facility encourage <mark>children to wear hats</mark> and long sleeves from late spring to early fall and especially in the summer months?	Y/N
4.	In summer months, does your facility encourage the use of SPF 30+ sunscreen and either provide it on site or ask that parents bring a bottle for their children if they are old enough to appropriately apply it?	Y/N
5.	Is there enough shade in your playground, whether from trees or a shade structure, for all children to avoid the sun on a very hot day?	Y/N
6.	Would you display sun safety information, such as a poster, so that parents can pick up some sun safety tips for their children?	Y/N
Please indicate the capacity of your facility, to rec <mark>eive Sun Safe materials for all children:</mark>		
Please provide the name of your facility as it should appear on the certificate, as well as your full mailing address:
