PEER REVIEWED PUBLICATIONS 2005

79. Dunn CA & Mager DL. Transcription of the human and rodent SPAM1 / PH-20 genes initiates within an ancient endogenous retrovirus. BMC Genomics 2005;6:47.

352. Wiseman SM, Makretsov N, Nielsen TO, Gilks B, Yorita E, Cheang M, Turbin D, Gelmon K, Huntsman, DG. Coexpression of the type 1 growth factor receptor family members HER-1, HER-2, and HER-3 has a synergistic negative prognostic effect on breast carcinoma survival. Cancer. 2005;103:1770-1777.

PEER REVIEWED PUBLICATIONS 2006

52. Coe BP, Lee EH, Chi B, Girard L, Minna JD, Gazdar AF, Lam S, MacAulay C, Lam WL. Gain of a region on 7p22.3, containing MAD1L1, is the most frequent event in small-cell lung cancer cell lines. Genes Chromosomes Cancer. 2006;45(1):11-9.

147. Lansdorp PM. Stress, social rank and leukocyte telomere length. Aging Cell. 2006;5:583-584.

162. Mar L, Hoodless PA. Embryonic fibroblasts from mice lacking Tgf were defective in cell cycling. Mol Cell Biol. 2006;26:4302-4310.

274. Turbin DA, Cheang MC, Bajik CD, Gelmon KA, Yorita E, De Luca A, Nielsen TO, Huntsman DG, Gilks CB. MDM2 protein expression is a negative prognostic marker in breast carcinoma. Mod Pathol. 2006;19(1):69-74

308. Yoshimoto M, Cutz JC, Nuin PA, Joshua AM, Bayani J, Evans AJ, Zielenksa M, Squire JA. Interphase FISH analysis of PTEN in histologic sections shows genomic deletions in 68% of primary prostate

BOOKS & BOOK CHAPTERS 2005

BOOKS & BOOK CHAPTERS 2006

PRESENTATIONS & ABSTRACTS 2005

96. Fyles G, Barroetavena M, Kazanjian A. Use of the Palliative Outcome Scale (POS) in Tertiary Palliative Care: Preliminary Results of a Research Study Using the POS for Assessment in the Cross Cultural Setting. BC Hospice Palliative Care Association Conference. Richmond, BC. May 2005.

105. Gagne I and Zavgorodni S, Performance of Analytical Anisotropic (AAA) and PBC algorithms in a heterogeneous phantom:Varian User’s Meeting. Seattle, 2005

British Columbia Cancer Agency

58
1. Lasson SN, IMT for advanced head and neck cancer. UK Radiation Oncology Conference. York, UK.
7. Lasson SN, IMT for advanced head and neck cancer. UK Radiation Oncology Conference. York, UK.

---

241. Pickles T, GU Radiation Oncology Group. Why the ASTRO bNED Definition has been Dropped and which Definitions are Superior. CARO Annual Scientific Meeting. Victoria, BC. Sept 7-10, 2005. Radiother Oncol. 2005;76(Suppl 1):S21,abs68.

249. Popescu IA, Shaw CP, Zavgorodni SF, Beckham WA, Calibrating a virtual linac: monitor units in Monte carlo simulations. Presented at European Society for Therapeutic Radiology and Oncology (ESTRO), (Lisbon, Portugal). Radiotherapy and Oncology. 2005;76(Supplement 2).

288. Shin H, Baillie D, Jones S. Analysis of conservation and frequency of the trans-splice sites in C. elegans suggests that the neurons have a significantly smaller proportion of genes with the conserved trans-
splice site compared to other tissue type genes. 15th Bicentennial International C.elegans Conference. Los Angeles, CA. Jun 2005.

300. Stephen, J. From Clinical Intervention to Grass Roots Activism: The story of the Young and the Breastless. CAPO. Victoria, BC. Apr 13-16, 2005.

331. Wang G, Jones SJM, Marra MA, Sadar MD. Genes targeted by both the androgen and PKA signalling pathways that are dependent upon androgen receptor. Joint SBUR-ESUR Meeting. Miami Beach, FL. Dec 1-4, 2005.

345. Yapp D. Non-invasive assessment of tumour microenvironment in the LCC6 (breast) and Shionogi (prostate) tumour models with PET and MRI. The Gray Cancer Institute. Mt. Vernon Hospital, UK. 2005.

PRESENTATIONS & ABSTRACTS 2006

53. Ellard SL, Olivotto IA, Speers CH, Kennecke HF. Medullary breast cancer diagnosis confers an improved prognosis relative to other high-grade ductal carcinomas in a large population-based analysis. Breast Cancer Res Treat. 2006;100(S1):abs 6036.

59. Ferro MA, Leis A, Doll R, Chiu L, Chung M, Barroetavena MC. Traditional Chinese medicine (TCM) and complementary and alternative medicine (CAM) use among Chinese cancer patients in BC.

86. Habibi G, Law JH, Lee C, Shadio A, Berguin I, Buys TP, Cheang MCU, Lam WL, Gilks CB, Nielsen TO, Bally MB, Chen CS, Kulp S, Yapp D, Dunn SE. The Y-box binding protein-1 (YB-1) is over-

118. Kent D, Dykstra B, Eaves C. Rapid and irreversible alteration of the ability of hematopoietic stem cells to execute both symmetric and asymmetric self-renewal divisions by exposure to reduced stem cell factor concentrations with no effect on their survival or mitogenesis. 48th Annual Meeting of the ASH. Atlanta, GA. Dec 9-12, 2006.

126. Kuo ANC, Davies, JJ, Wilson IM, Lam WL. High-resolution analysis of global methylation patterns in lung cancer. 2006 World Microarray Congress (Best Student Abstract Award).

190. O'Dor E, Lansdorp P. Telomeric chromatin indifferenciation and DNA damage. Fifth Canadian Symposium on Telomeres, Calgary, AB. May 11-14, 2006.

206. Popescu IA, Bergman AM, Kwa W. Automatic, patient-specific, Monte Carlo based IMRT QA, without ionization chamber or film. Presented at World Congress on Medical Physics and Biomedical Engineering, (Seoul, Korea) 2006;Abstract #3340.

255. Tsui IFL, Rosin MP, Zhang L, and Lam WL. Segmental changes in chromosome arm 3p are potential prognostic and diagnostic markers in oral premalignant lesions. Frontiers in Cancer Prevention Research 2006.

273. Woodward WA, Truong PT, Thames HD, Olivotto IA, Ragaz J, Buchholz A. Using the nodal ratio of positive/excised nodes rather than the absolute number of positive lymph nodes minimizes the differences in postmastectomy LRR risk between the BC and the University of Texas M.D. Anderson Cancer Centre (MDACC) prospective data sets. Int J Radiat Oncol Biol Phys. 2006;(Supp 1):S6,Abs10.
