

BC Cancer Agency

CARE & RESEARCH

An agency of the Provincial Health Services Authority

British Columbia and Yukon Cancer Registry Reporting Guidelines for Diagnostic Imaging Centres

ALL DIAGNOSTIC REPORTS, INCLUDING BUT NOT LIMITED TO: X-RAY, CT SCAN, BONE SCAN, MAMMOGRAPHY, ULTRASOUND, MRI OR PET SCAN THAT SHOW ANY OF THE FOLLOWING:

- Tumours -- malignant, pre-malignant or of uncertain behaviour including any descriptors ending in 'oma'.
- Systemic malignant and pre-malignant diseases – leukemia, lymphoma, Hodgkin's disease, myeloma and other myeloproliferative and lymphoproliferative disorders.
- Carcinoma in-situ, intraepithelial high grade or grade III, non-infiltrating or non-invasive.
- Benign tumours of the meninges, brain, spinal cord, cranial nerves and other parts of the central nervous system, pituitary, craniopharyngeal duct and pineal gland.
- Reports with ambiguous terms such as "Appears", "Compatible With", "Consistent With", "Favours", "Most Likely", "Presumed", "Probable", "Suspicious", "Typical".

If you have any questions about reporting cases to the Cancer Registry, please email us at: cancerregistry@phsa.ca.

Submission to the BC Cancer and Yukon Registry should be made via **one of** the following three ways:

1. Interface: Cancer Agency Information System (Electronic Health Record)
2. Fax: 604-708-2000
3. Mail: Coordinator, Data Quality & Registry
201-601 Broadway W
Vancouver BC V5Z 4C2

The Cancer Registry would like to thank hospitals, pathologists, radiologists and members of the medical profession and others who submit data, for their ongoing active support.
