

BC Cancer ST Program Updates for November, 2021

AFFECTED APPLICATION(S)	PowerChart: Oncology/Hematology Regimens and PowerPlans
AFFECTED AREA(S)	BC Cancer VC (Oncologists, Oncology Pharmacy, and Oncology Nursing Staff)
NET NEW, OR UPDATE TO EXISTING BUILD	Update to Existing Build

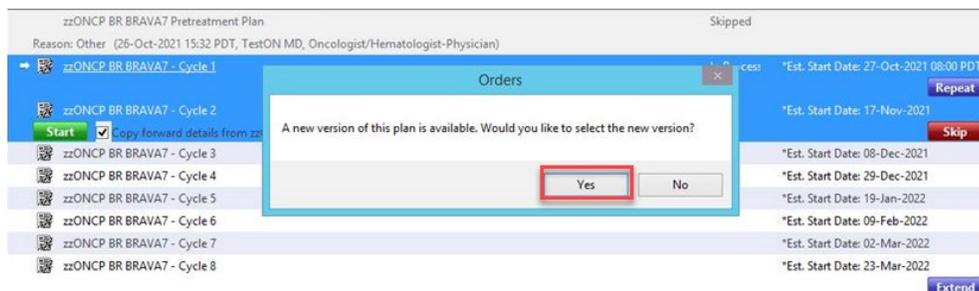

What has Changed?

Any changes released that affect Oncology Regimens and PowerPlans/Cycles for the **BC Cancer Systemic Therapy (ST) Program** will be communicated monthly via Special Bulletin.

These notification changes are important for Nursing staff, Pharmacy, and Providers to be aware of for their patient's care.

For Providers:

- **For PowerPlans that are versioned:** If your patient has already started on a Regimen, when you order the next cycle PowerPlan, a pop up window will appear to indicate a new version is required.
 - Click **Yes** to accept the new version
 - **Do not** use the Copy Forward functionality to ensure that the updates apply

- **IMPORTANT:** Any change from the standard treatment regimen (dose modification, addition of pre-med, etc.) in the previous cycle will need to be manually added to the cycle that is being ordered with the new version (see additional documentation regarding versioning)

Please see this month's changes below.

PowerPlan: LYEPOCHR

Cycles/PowerPlans: All Associated PowerPlans

Changes:

- To accommodate outpatient Monday/Thursday lab requisitions, a new PowerPlan called **ONCP LY LYEPOCHR Outpatient Labs** has been added in between Cycle 1 and Cycle 2. This will print out a single requisition for both Monday and Thursday labs for 6 months

Future				
Laboratory				
<input checked="" type="checkbox"/>	CBC and Differential	Order	*Est. 15-Nov-2021	Blood, Routine, *Est. Collection: 15-Nov-2021 every 7 day (+/- 2 day) for 6 month,
<input checked="" type="checkbox"/>	CBC and Differential	Order	*Est. 15-Nov-2021	Blood, Routine, *Est. Collection: 15-Nov-2021 every 7 day (+/- 4 day) for 6 month,

- Note that we can still ad-hoc order recurring labs outside of a PowerPlan. This can be done if outpatient labs are forgotten or needed at some other time
- Dose Levels for both **cyclophosphamide** and the **etoposide-DOXOrubicin-vinCRlistine** have been built out and are now sorted in ascending order.
