

Gynecological Tumour Group - Endometrial Pathway

Overarching Pathway

Primary Care Practitioners
(Family Practice)

Indigenous Cancer Care ([20](#), [21](#), [22](#))

Supportive Care
(Psychosocial Oncology, Pain & Symptom Management/Palliative Care, Cancer Rehabilitation)

Non-Oncology Care Providers

This figure represents a general pathway of care that most people with cancer will experience. It shows

- The major phases of a cancer journey
- How a person might progress through each phase
- Key supportive services that are available throughout each person's cancer journey

Please visit the [Clinical Pathways Web](#) page for

- Tumour Group Clinical Pathways
- Patient Companion Guide
- Methodology Reports

Target Population

The target population for this pathway include health care providers such as primary care practitioners, oncologists, specialists, nurses, and other members of a health care team including allied health providers. Healthcare administrators across BC Cancer and the health authorities may also benefit from this resource for systems and operational planning.

Pathway Disclaimer

This pathway is an informational resource, intended to provide a high-level overview of the treatment journey a patient in British Columbia may receive. This pathway is not a substitute for medical advice and clinical judgment is still required as not all care trajectories will follow the proposed steps outlined in the pathway. This resource may not reflect all available evidence as research continues to evolve rapidly and BC Cancer is not responsible for any incomplete information. Furthermore, BC Cancer and those involved in developing this pathway are not liable for any incidental or consequential outcomes related to the information in this pathway. Anyone using the information provided in this pathway does so at their own risk.

Pathway Map Legend

Shape Guide

Line Guide

Pathway Map Considerations

This pathway is intended as a high-level resource and therefore does not include specific recommendations on specific systemic therapy protocols or radiation therapy doses. Instead, additional information can be sought via the inserted hyperlinks to resources that may aid a clinician in their treatment planning. The level of detail for each pathway was guided by the tumor group lead and intentionally kept high-level and represents the overall ideal pathway of care for a patient in general. Each patient will have individual needs and each cancer centre may have variation in the way care is delivered, but overall the intent was to represent the pathway that the majority of patients will follow.

Abbreviations

BS/BSO: Bilateral Salpingo-Oophorectomy
BMI: Body Mass Index
CT: Computed Tomography
D&C: Dilation and Curettage
EBRT: External Beam Radiation Therapy
EC: Endometrial Cancer
ER: Estrogen Receptor
EOL: End of Life
FIGO: International Federation of Gynecology and Obstetrics
FP: Family Practice
HPV: Human Papillomavirus
IHC: Immunohistochemistry
IUD: Intrauterine Device
LVSI: Lymphovascular Space Invasion

MMRd/MMRp: Mismatch Repair deficient/proficient
MRI: Magnetic Resonance Imaging
MDC: Multidisciplinary Conference/Discussion
MRP: Most Responsible Provider
NSMP: No specific Molecular Profile
MRI: Magnetic Resonance Imaging
PAP smear: Papanicolaou smear
PCP: Primary Care Provider
PFC: Patient & Family Counseling
PSMPC: Pain & Symptom Management & Palliative Care
RT: Radiation Therapy
ST: Systemic Therapy
TVUS: Transvaginal Ultrasound
US: Ultrasound
VB: Vaginal Brachytherapy
Wt: Wild-type

Additional Information

To learn more about how the Clinical Care Pathways are developed, visit the [Methodology Report](#).

Other Tumour Group Clinical Care Pathways can be found on the [BC Cancer Website](#).

This work was supported by grant funding provided by the Health System Redesign Program.

Gynecological Tumour Group - Endometrial Pathway

Pre-Diagnosis

**please click reference number to open associated hyperlinks*

Gynecological Tumour Group - Endometrial Pathway

Diagnosis

**please click reference number to open associated hyperlinks*

*Please note this pathway is based on FIGO 2009 Staging

Throughout treatment, consider...

Regular symptom & performance status assessment (12); Oral Oncology/dentistry; Supportive care (13, 14); Sexual & reproductive health (15, 16, 17); Co-morbidity management & medication review; Risk factor mitigation; Clinical trials (where applicable) (18); Goals of care (19); Cultural safety (2, 20, 21, 22); Involvement of PCP; Consider referral to Hereditary Cancer Program based on pt's family history (9)

Gynecological Tumour Group - Endometrial Pathway

NSMP low grade/ER high Treatment: Grade 1/2 Endometrioid and ER high (Allred $\geq$ 7-8)

*Please note this pathway is based on FIGO 2009 Staging

**please click reference number to open associated hyperlinks*

Throughout treatment, consider...

Regular symptom & performance status assessment (12); Oral Oncology/dentistry; Supportive care (13, 14); Sexual & reproductive health (15, 16, 17); Co-morbidity management & medication review; Risk factor mitigation; Clinical trials (where applicable) (18); Goals of care (19); Cultural safety (2, 20, 21, 22); Involvement of PCP; Consider referral to Hereditary Cancer Program based on pt's family history (9)

Gynecological Tumour Group - Endometrial Pathway

NSMP high grade/ER weak/negative Treatment:

Grade 3 Endometrioid or any grade non-endometrioid Carcinoma or any ER weak/negative (Allred < 7-8)

*Please note this pathway is based on FIGO 2009 Staging

**please click reference number to open associated hyperlinks*

Throughout treatment, consider...

Regular symptom & performance status assessment (12); Oral Oncology/dentistry; Supportive care (13, 14); Sexual & reproductive health (15, 16, 17); Co-morbidity management & medication review; Risk factor mitigation; Clinical trials (where applicable) (18); Goals of care (19); Cultural safety (2, 20, 21, 22); Involvement of PCP; Consider referral to Hereditary Cancer Program based on pt's family history (9)

Gynecological Tumour Group - Endometrial Pathway

Treatment - p53 abnormal

**please click reference number to open associated hyperlinks*

*Please note this pathway is based on FIGO 2009 Staging

Throughout treatment, consider...

Regular symptom & performance status assessment (12); Oral Oncology/dentistry; Supportive care (13, 14); Sexual & reproductive health (15, 16, 17); Co-morbidity management & medication review; Risk factor mitigation; Clinical trials (where applicable) (18); Goals of care (19); Cultural safety (2, 20, 21, 22); Involvement of PCP; Consider referral to Hereditary Cancer Program based on pt's family history (9)

Gynecological Tumour Group - Endometrial Pathway

**please click reference number to open associated hyperlinks*

Treatment - MMRd

*Please note this pathway is based on FIGO 2009 Staging

Throughout treatment, consider...

Regular symptom & performance status assessment (12); Oral Oncology/dentistry; Supportive care (13, 14); Sexual & reproductive health (15, 16, 17); Co-morbidity management & medication review; Risk factor mitigation; Clinical trials (where applicable) (18); Goals of care (19); Cultural safety (2, 20, 21, 22); Involvement of PCP; Consider referral to Hereditary Cancer Program based on pt's family history (9)

Treatment - *POLE* mut

*Please note this pathway is based on FIGO 2009 Staging

Throughout treatment, consider...

Regular symptom & performance status assessment (12); Oral Oncology/dentistry; Supportive care (13, 14); Sexual & reproductive health (15, 16, 17); Co-morbidity management & medication review; Risk factor mitigation; Clinical trials (where applicable) (18); Goals of care (19); Cultural safety (2, 20, 21, 22); Involvement of PCP; Consider referral to Hereditary Cancer Program based on pt's family history (9)

Gynecological Tumour Group - Endometrial Pathway

Conservative Management of endometrial hyperplasia w/atypia or low grade endometrioid adenocarcinoma

* please click reference number to open associated hyperlinks

Throughout treatment, consider...

Regular symptom & performance status assessment ([12](#)); Oral Oncology/dentistry; Supportive care ([13](#), [14](#)); Sexual & reproductive health ([15](#), [16](#), [17](#)); Co-morbidity management & medication review; Risk factor mitigation; Clinical trials (where applicable) ([18](#)); Goals of care ([19](#)); Cultural safety ([2](#), [20](#), [21](#), [22](#)); Involvement of PCP; Consider referral to Hereditary Cancer Program based on pt's family history ([9](#))

Post-Treatment Care & Survivorship

**please click reference number to open associated hyperlinks*

Shared model for surveillance can include Gynecology
Oncology, Community Gynecology, Primary Care
Provider, Radiation Oncology

Throughout treatment, consider...

Regular symptom & performance status assessment ([12](#)); Oral Oncology/dentistry; Supportive care ([13](#), [14](#)); Sexual & reproductive health ([15](#), [16](#), [17](#)); Co-morbidity management & medication review; Risk factor mitigation; Clinical trials (where applicable) ([18](#)); Goals of care ([19](#)); Cultural safety ([2](#), [20](#), [21](#), [22](#)); Involvement of PCP; Consider referral to Hereditary Cancer Program based on pt's family history ([9](#))

Recurrent or Progressive Disease

**please click reference number to open associated hyperlinks*

Throughout treatment, consider...

Regular symptom & performance status assessment ([12](#)); Oral Oncology/dentistry; Supportive care ([13](#), [14](#)); Sexual & reproductive health ([15](#), [16](#), [17](#)); Co-morbidity management & medication review; Risk factor mitigation; Clinical trials (where applicable) ([18](#)); Goals of care ([19](#)); Cultural safety ([2](#), [20](#), [21](#), [22](#)); Involvement of PCP; Consider referral to Hereditary Cancer Program based on pt's family history ([9](#))

Gynecological Tumour Group - Endometrial Pathway

End of Life Care

**please click reference number to open associated hyperlinks*

Throughout treatment, consider...

Goals of Care Discussions & Consideration of Cultural Safety (2, 19, 20, 21, 22, 32, 33, 38, 39, 40, 41)

Subject Matter Expert Working Group & COIs

Richard Gagnon, Project Lead, Medical Oncologist
Merck, Bayer, AstraZeneca, Astellas, Eisai, GSK

Flavia DeAngleis, Medical Oncologist
No disclosures

Guangming Han, Pathologist
No disclosures

Caroline Holloway, Radiation Oncologist
No disclosures

Mairi Lucas, Medical Oncologist
GSK, Gilead, AstraZeneca, Eisai, Pfizer, Daiichi Sankyo

Jessica McAlpine, Gynecologist Oncologist
GSK, Merck and Astra-Zeneca

Nataliya Moldovan, Radiation Oncologist
No disclosures

Shiraz Moola, Obstetrician/Gynecologist
No disclosures

Andrea Neilson, Gynecologist Oncologist
Ovarian Cancer Canada, Gynecologic Cancer
Initiative, Canadian Cancer Society, VGH & UBC
Hospital Foundation

Pathway Program Team

Yashpal Bhatia, Project Coordinator, Tumour Groups
Amilya Ladak, Manager, Tumour Groups
James Loudon, Interim Executive Director, Provincial Programs
Kalina Nowaczek, Policy Analyst, Tumour Groups
Christine Simmons, Tumour Group Council Chair

Other Stakeholders

Family Practice & GPO
Indigenous Cancer Control
Nursing Community of Practice (NCoP)
Patient and Family Experience Team & Supportive Care
Radiation Therapists
Surgical Oncology Network
Provincial Pharmacy, Pathology & Medical Imaging Teams
