

Primary Care Practitioners
(Family Practice)

Indigenous Cancer Care (29, 45, 46)

Supportive Care

(Counselling, Psychiatry, Nutrition, Speech Language Pathology, Physiotherapy, Pain & Symptom Management/Palliative Care)

This figure represents a general pathway of care that most people with cancer will experience. It shows

- The major phases of a cancer journey
- How a person might progress through each phase
- Key supportive services that are available throughout each person's cancer journey

Please visit the [Clinical Pathways Web](#) page for

- Tumour Group Clinical Pathways
- Patient Companion Guide
- Methodology Reports

Target Population

The target population for this pathway include health care providers such as primary care practitioners, oncologists, specialists, nurses, and other members of a health care team including allied health providers. Healthcare administrators across BC Cancer and the health authorities may also benefit from this resource for systems and operational planning.

Pathway Disclaimer

This pathway is an informational resource, intended to provide a high-level overview of the treatment journey a patient in British Columbia may receive. This pathway is not a substitute for medical advice and clinical judgment is still required as not all care trajectories will follow the proposed steps outlined in the pathway. This resource may not reflect all available evidence as research continues to evolve rapidly and BC Cancer is not responsible for any incomplete information. Furthermore, BC Cancer and those involved in developing this pathway are not liable for any incidental or consequential outcomes related to the information in this pathway. Anyone using the information provided in this pathway does so at their own risk.

Line Guide

Pathway Map Considerations

This pathway is intended as a high-level resource and therefore does not include specific recommendations on specific systemic therapy protocols or radiation therapy doses. Instead, additional information can be sought via the inserted hyperlinks to resources that may aid a clinician in their treatment planning. The level of detail for each pathway was guided by the tumor group lead and intentionally kept high-level and represents the overall ideal pathway of care for a patient in general. Each patient will have individual needs and each cancer centre may have variation in the way care is delivered, but overall the intent was to represent the pathway that the majority of patients will follow.

Abbreviations

- BMT**: Bone Marrow Transplant
- EOL**: End of Life
- FP**: Family Practice
- LYC**: Lymphoma Conference
- MDC**: Multidisciplinary Conference/Discussion
- MRP**: Most Responsible Provider
- PCP**: Primary Care Provider
- PFC**: Patient & Family Counseling
- PSMPC**: Pain & Symptom Management & Palliative Care
- RT**: Radiation Therapy
- ST**: Systemic Therapy

Additional Information

To learn more about how the Clinical Care Pathways are developed, visit the [Methodology Report](#).

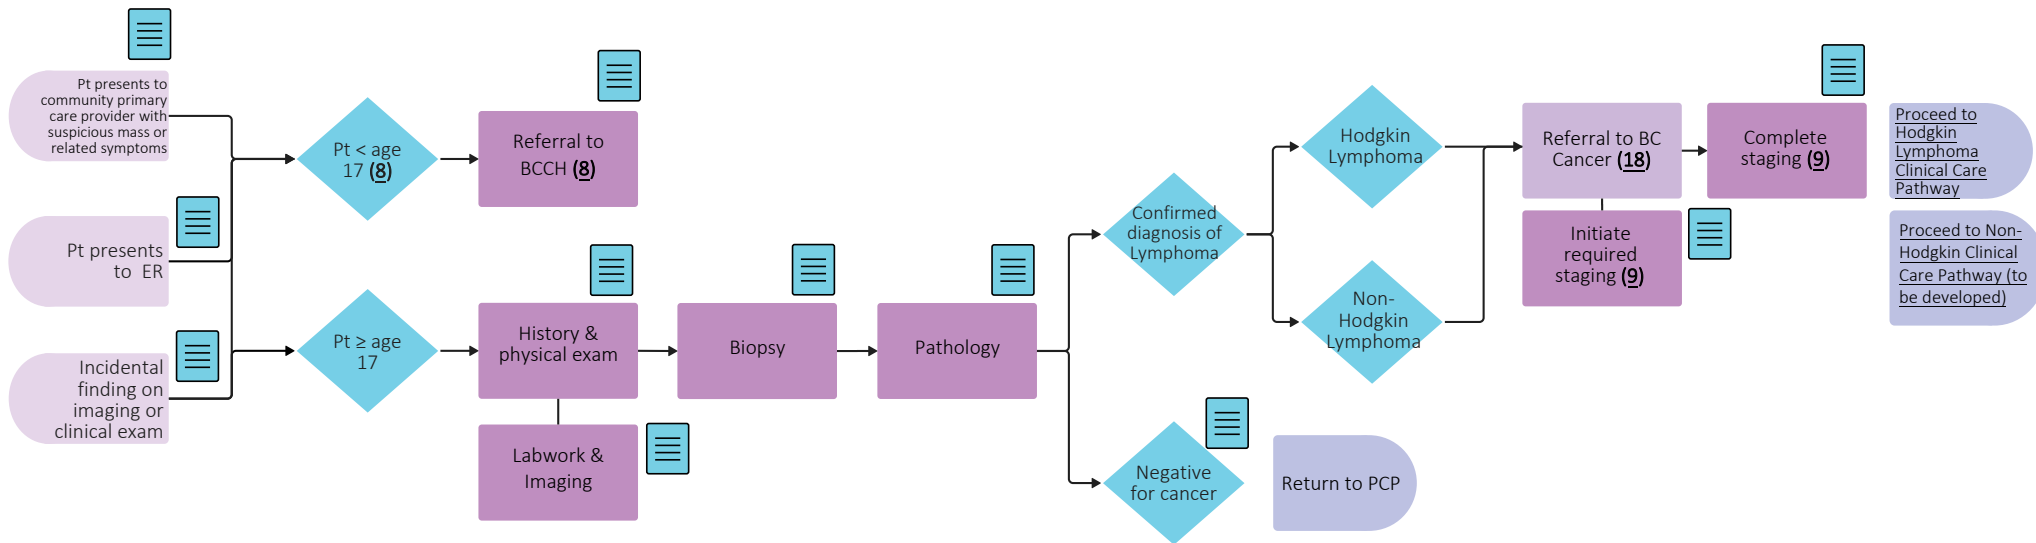

Other Tumour Group Clinical Care Pathways can be found on the [BC Cancer Website](#).

This work was supported by grant funding provided by the Health System Redesign Program.

Lymphoma Tumour Group - Enlarged Lymph Node Pathway

Pre-Diagnosis & Diagnosis

**please click reference number to open associated hyperlinks*

If patient does not have a PCP, please see health connect registry (44)

Throughout treatment, consider...

Regular symptom & performance status assessment (10); Oral oncology/dentistry; Supportive care (11, 12); Sexual & reproductive health (13, 14, 15); Co-morbidity management & medication review; Risk factor mitigation; Clinical trials (where applicable)(16); Goals of care (17); Cultural safety (2, 29, 45, 46); Involvement of PCP; Lymphoma Conference/MDC (as needed)

Subject Matter Expert Working Group & COIs

Kerry Savage, Project Lead, Medical Oncologist
Roche, BMS

Laurie Sehn, Project Lead, Medical Oncologist
Roche/Genentech, AstraZeneca, AbbVie, Kite/
Gilead, Eli Lilly, Incyte

Maura Brown, Radiation Oncologist
No disclosures

Erma Gardner, Hematologist
AstraZeneca, Beigene, GSK, J&J

Jason Hart, Medical Oncologist
No disclosures

Katie Jasper, Radiation Oncologist
No disclosures

Heather Leitch, Hematologist
BeiGene

Andrea Lo, Radiation Oncologist
Need

Robert Schmidt, Hematologist
