

Non-Gynecological Cytology Specimen Collection Ordering

Important note: The BC Cancer Diagnostic Cytology Laboratory does not provide specimen collection supplies.

For non-gynecological sample collection (e.g., anal cytology, body cavity fluids, fine needle aspirations, etc.), **CytoLyt®** and **PreservCyt®** collection vials must be ordered directly from **Hologic® Canada**.

30 mL CytoLyt® container

ThinPrep PreservCyt® container

Ordering Information:
